HOTOOL-PE-CAB

HORNISSE WIRE STRIPPING PLIERS

The HORNISSE WIRE STRIPPING PLIERS are a specialist tool designed for the precise removal of insulation from electrical wires. They facilitate the work of electricians and installers, ensuring fast and accurate cable preparation without the risk of damaging the wire core. They are suitable for use with both single-core and multi-core wires, as well as cables of various thicknesses.

Material: steel, plastics

HOTOOL-AC4

HORNISSE AC4 CONNECTOR CRIMPER TOOL

The HORNISSE AC4 CONNECTOR CRIMPER TOOL is designed primarily for crimping HORNISSE AC4 CONNECTOR CLAMPS during the installation of electric heating films. It enables fast and reliable wire connections, which are crucial for installation, repair, and maintenance tasks. The tool's flat crimping jaws and locking mechanism ensure a precise and secure crimp of the AC4 connector onto the heating film. It is compatible with cables of varying cross-sectional sizes, making it a versatile tool across multiple industries.

Material: steel, plastics

HOTOOL-CAB

HORNISSE SLEEVE CRIMPER TOOL 0,25 - 10 mm²

The HORNISSE SLEEVE CRIMPER TOOL is a versatile tool designed for the precise crimping of sleeves onto wire ends, ensuring a secure and reliable electrical connection. It is suitable for crimping sleeves ranging from 0.25 mm² to 10 mm². This tool is an essential piece of equipment for electricians and installers, providing fast and durable cable terminations across various types of installations.

Material: steel, plastics

Product ID	Product weight net [kg]	Dimensions (L x W x H) [cm]
